TRICARE
MANAGEMENT
ACTIVITY

MEMORANDUM FOR US ARMY: ASSISTANT CHIEF OF STAFF, FACILITIES, OFFICE
OF THE SURGEON GENERAL/HQ MEDCOM
US NAVY: DIRECTOR OF FACILITIES (M41), BUREAU OF
MEDICINE AND SURGERY (BUMED)
US AIR FORCE: CHIEF, HEALTH FACILITIES DIVISION, HQ
USAF/SG8F

SUBJECT: ENERGY AND WATER EFFICIENT OPERATIONS AND MAINTENANCE
GUIDELINES: MILITARY HEALTH SYSTEM

Attached please find the *Energy and Water Efficient Operations and Maintenance Guidelines: Military Health System*. It is also posted on the HA/PPMD website for ready reference at http://www.mhsworldclassfacilities.org/home/?page_id=3088.

As you are aware, these guidelines were developed by OASD (Health Affairs), Portfolio Planning and Management Division (HA/PPMD) at the request of, and in coordination with, representatives from the military commands of all three Military Departments.

The attached Guidelines provide Military Departments' facilities and energy managers with standardized, uniform direction that drives energy and water efficient operations and maintenance (O&M) practices for MTFs throughout the Department of Defense (DoD) inventory. Implementation of the guidelines will result in improvement in the operations of facilities and help achieve energy and water management mandates established by legislation, Executive Orders and DoD policies (e.g., DoD Strategic Sustainability Performance Plan). You may redistribute them as you deem appropriate.

John A. Becker

Director, Portfolio Planning and Management Division
Office of the Chief Financial Officer
